

Motorsport – Senior Engine Design Engineer*

High competence and the passion for new challenges make our Powertrain & Chassis division the guidepost to the automotive future. Take your next step and support our team.

This will make you grow:

- Design and drawing of parts and assemblies relating to internal combustion engine components;
- Implementation of spreadsheets for sizing mechanical components;
- Collaboration with internal testing departments and suppliers for the optimization of designed parts;
- Compilation of base lists, drafting of BOMs and technical documentation necessary to support procurement and assembly activities;
- Drafting of technical reports relating to design and calculation activities;

And this is how you'll take us forward:

- You have a Bachelor's or Master's degree in Engineering with preference for motorsport;
- Good preparation on mechanical and motoring fields with at least 5 years of work experience;
- Knowledge and previous experience in 3D and 2D technical drawing of mechanical components;
- Good knowledge of the Office package and ability to focus on data analysis;
- You have good proficiency with English;
- Initiative, problem solving and excellent interpersonal skills;
- Passion for motorsport disciplines and ability to work under pressure;
- You have a strong passion for automotive, development of the automotive market of the future;

* Gender, age, nationality, or religion are not relevant for us – you are all that matters.
