

## Vehicle Concept Engineer\*

---

With our innovative spirit and over 50 years of expertise, we are forging ahead in Vehicle Engineering of product developments for the automotive sector. For successful developments in the future, we put our stakes on your know-how. [FOR PS]Our Production Solutions division masters demanding challenges in engineering – with innovation and strong expertise. Take the future of mobility into your own hands and join our team.

This will make you grow:

- Evaluate design proposals for feasibility and compliance with regulations;
- Integrate package data, ergonomic requirements, and technical constraints into the design process;
- Support the development of surfaces (Class A) to achieve design intent while ensuring manufacturability;
- Provide engineering input during the creative development of interior, exterior, and CMF (color, materials, finish) projects;
- Work with designers to resolve packaging, ergonomics, and production challenges without compromising aesthetics;
- Prepare and review technical drawings, sections, and engineering documentation.
- Develop initial vehicle concepts, considering body style, layout, powertrain configuration, and platform direction;
- Define and validate vehicle architecture through 2D/3D packaging studies and early CAD models;
- Conduct feasibility studies for new structural, mechanical, and electrical systems.

And this is how you'll take us forward:

- Bachelor's or Master's degree in Automotive Engineering (or High School Diploma), Mechanical Engineering, Industrial Design Engineering, or similar;
- Experience as a Studio/Concept Engineer in an automotive design environment (OEM or Tier 1);
- Proficiency in CATIA V5/V6;
- Strong understanding of automotive packaging, regulations, and manufacturing processes;
- Good communication skills in English; ability to collaborate effectively with international teams

\* Gender, age, nationality, or religion are not relevant for us – you are all that matters.

Sounds like your next challenge? Then we'll be looking forward to your application!
